BORN BRAVE
Developer
BUG

Who is that guy ?

- Plamen Terziev
  - Senior developer, with more then 10 years of experience in the development space including Java.
  - Worked in many companies: Masthead Studios, Nexgen Bitmix, Droxic
  - Currently involved in a mobile apps development
  - Graduated with master in computer graphics in Sofia University

Now…. about you…

- Who are you?
  - Do you work somewhere ? If yes where… and what.. And do you like it ?
  - What had you work before and/or what are your interests ?
  - Where did you studied or still studding ?
  - What do you expect from this course
  - Why did you decided to start with this course ?
  - Have you tried any other academies ?

About the course:

- The course will contain 18 lectures. (which doesn't mean 18 days ☺)
- During the course you will do a lot of examples and you will learn the fundamentals of Java programming language
- You will make a lot of practical examples and you will experience what is really to be a developer.
- You will participate in a sample team based project with other course members.
- You will experience the "alone in the dark" training method.

Any questions ?

Lets start then….
“Programming with Java” (updated for Java 8)
